

## The Drugs Don't Work - The Verve

Intro first 3 lines : [C] [Am] [Em] [F] [G] [C] [Csus4] [C]

All this [C] talk of getting old, it's getting me down [Am] my love

Like a cat in a [Em] bag, waiting to [F] drown

This [G] time I'm co[C]min' down [Csus4] [C]

And I [C] hope you're thinking of me, as you lay down on [Am] your side

Now the drugs don't [Em] work, they just make you [F] worse

But I [G] know I'll see your [C] face again [Csus4] [C]

Now the drugs don't [Em] work, they just make you [F] worse

But I [G] know I'll see your [C] face again [Csus4] [C]

But I [C] know I'm on a losing streak

'Cause I passed down my [Am] old street

And if you wanna [Em] show, then just let me [F] know

And I'll [G] sing in your [C] ear again [Csus4] [C]

Now the drugs don't [Em] work, they just make you [F] worse

But I [G] know I'll see your [C] face again [Csus4] [C]

'Cause baby [F] ooh [Em] if heaven calls [Am] I'm coming too [G]

Just like you [F] said [Em] you leave my life [Am]

I'm better off dead [G] [Gsus4]
